Enkopur	Van Beek BV	VB-EPDM (grinded)	EPDM	roof membrane	UP 2K
Enkopur	Vedag	Vedaflex G4E	bitumen	roof membrane	UP 2K VA 933
Enkopur	Vedag	Vedaflor WS-X (blue-green)	bitumen	roof membrane	UP 2K VA 933
Enkopur	Vedag	Vedagard Multi SK	aluminium/ polyester	vapor barrier membrane	UP 2K
Enkopur	Vedag	Vedastar Flor Duo	bitumen	roof membrane	UP 2K VA 933
Enkopur	Vedag	Vedatect PYE PV 200 S5 EN	bitumen	roof membrane	UP 2K VA 933
Enkopur	Vedag	Vedatop	bitumen	roof membrane	UP 2K
Enkopur	Vedag	Vedatop Duo	bitumen	roof membrane	UP 2K VA 933
Enkopur	Wolfen	Cosmofin FG	PVC	roof membrane	UP 2K
Enkopur	Wolfen	EverGuard TPO (grinded)	TPO/FPO	roof membrane	UP 2K
Enkopur	Wolfen	Inofin FR (grinded)	FPO	roof membrane	UP 2K
Enkopur	Wolfen	Inofin FR-V (grinded)	FPO	roof membrane	UP 2K
Enkopur	Wolfen	Tectofin RG	ASA-PVC-P	roof membrane	UP 2K
Enkopur	Wolfen	Tectofin RV	ASA-PVC-P	roof membrane	UP 2K
Enkopur	Wolfen	Tectofin RV Plus	ASA-PVC-P	roof membrane	UP 2K
Enkopur	Wolfen	Wolfen	PVC	roof membrane	UP 2K
Enkopur	Wolfen	Wolfen GWSK	PVC	roof membrane	UP 2K
Enkopur	Wolfen	Wolfen IB	PVC	roof membrane	UP 2K
Enkopur	Wolfen	Wolfen IB composite sheets	PVC	roof membrane	UP 2K
Enkopur	Wolfen	Wolfen M	PVC	roof membrane	UP 2K
Enkopur		PE-tube (flamed)	PE	tube	UP 2K
Enkopur		PVC-tube	PVC (hard)	tube	UP 2K VA 933
Enkopur		EPS/ XPS	Polystyrol	insulation	"Grundierung 2K" slightly sanded
Enkopur		concrete/cement screed (old)	mineral		UP 2K VA 933
Enkopur		concrete/cement screed (fresh, at least 28 days old)	mineral		2x UP 2K VA 933
Enkopur		precast concrete	mineral		"Grundierung 2K" slightly sanded
Enkopur		waterproof (in-situ) concrete	mineral		UP 2K VA 933
Enkopur		mastic asphalt	bitumen		"Grundierung 2K" slightly sanded Grundierung 1K
Enkopur		glass	glass	glass	Glasprimer
Enkopur		acrylic glass (e.g. Plexiglas)	PMMA	Kunststoffplatte	VA 933
Enkopur		glued wood	wood	chipboard	UP 2K VA 933
Enkopur		OSB panel	wood	chipboard	UP 2K VA 933
Enkopur		screen printing plate	wood	chipboard	UP 2K
Enkopur		aluminium (grinded)	metal	metal sheet	UP 2K
Enkopur		copper (grinded)	metal	metal sheet	UP 2K VA 933
Enkopur		iron (grinded)	metal	metal sheet	UP 2K VA 933
Enkopur		lead (grinded)	metal	metal sheet	VA 933
Enkopur		steel (grinded)	metal	metal sheet	UP 2K VA 933
Enkopur		stainless steel (grinded)	metal	metal sheet	UP 2K VA 933
Enkopur		galvanized steel (grinded)	metal	metal sheet	UP 2K VA 933
Enkopur		zinc (grinded)	metal	metal sheet	UP 2K VA 933

Changes to previous version (02/01/2023)

Product	Producer/ Supplier (sorted alphabetically)	Substrate	Type of material	Application	suggested Primer
---------	---	-----------	------------------	-------------	------------------

Remarks:

This table lists the test results from the ENKE laboratory that may be older in some parts. The composition previously tested products can now be changed. In various combinations there is no experience of the behavior for long-term moisture exposure or exposure to higher temperatures. Please consult us if necessary! Weathered surfaces behave often differently concerning adhesion than new ones. On the one hand loose layers can be formed on the surface, that reduces the adhesion without primer; on the other hand oxidation bonding groups can occur on the surface, which provide acceptable adhesion results on otherwise bad coatable membranes (ECB, FPO, TPO). In case of doubt, self made attempts are always appropriate. Customers often want to coat "wood", "aluminum" or "similar surfaces". In reality it is often not known or mentioned that the surfaces are painted or coated, therefore ask in case of doubt the supplier / producer or perform a self made adhesion test before starting the whole work. The adhesion tests were carried out by us in good faith. However, we can not rule out completely that due to modifications of the producers of the substrates, which we tested, adhesion properties may change. If one of us tested combination of materials was evaluated as good or very good in adhesion properties, this does not automatically mean that the manufacturer of the base material has approved this combination. In case of doubt, therefore, consultation is necessary with the ENKE laboratory or the manufacturer of the base material.
